

## Overall Approach to Risk Assessment

EYFS: 3.65

At **Little Fingers Pre-school** we take all reasonable steps to ensure staff and children in our care are not exposed to risks. We promote the safety of children, parents, staff and visitors by reviewing and reducing any risks.

### **Risk assessments**

Risk assessments document the hazards/aspects of the environment that needs to be checked on a regular basis. These include who could be harmed, existing controls, the seriousness of the risk/injury, any further action needed to control the risk, who is responsible for what action, when/how often will the action be undertaken, and how this will be monitored and checked and by whom.

The pre-school carries out written risk assessments regularly (at least annually). These are regularly reviewed and cover potential risks to children, staff and visitors at the pre-school. When circumstances change in the pre-school, e.g. a significant piece of equipment is introduced or new activity/experience; we review our current risk assessment or conduct a new risk assessment dependent on the nature of this change.

All staff are trained in the risk assessment process to ensure understanding and compliance of how they manage risks.

All outings away from the pre-school are individually risk assessed and adequately staffed with paediatric first aid trained practitioners. For more details please refer to the visits and outings policy.
